

LEARNING NEEDS SCREENING

CLIENT COPY

I am going to ask you questions about your school experiences and your health. Your answers will help me figure out what, if anything, is getting in your way of training and working. Your answers will also help me develop your welfare-to-work plan and help me figure out what services you may need to be successfully employed. It is very important that you answer these questions so that I can determine the right kind of welfare-to-work activities for you, and to get you the help and services you may need to succeed. These questions are not intended to determine the existence of a learning disability. They are only the first step in the evaluation process.

Please keep in mind that most people with learning disabilities are intelligent and many are gifted. Individuals with a learning disability may have difficulty with the following:

- Reading
- Listening
- Understanding directions
- Writing
- Spelling
- Math
- Organizing things
- Getting along with others
- Expressing ideas out loud
- Paying attention

Individuals with a learning disability can be taught to use their strengths and find ways to make it easier to learn and be more successful at school and on the job. I can help individuals get the appropriate welfare-to-work activities, including accommodations once a learning disability is identified.

Please keep in mind this screening is a very simple and short test. It will help you decide if you would like a referral to a learning disability specialist for an evaluation to find out if a learning disability exists. The areas that will be tested at evaluation are the following:

- Natural talents and abilities
- Ability to follow verbal and written information
- Achievement
- Job and Career interests

The specialist can help identify strengths and weaknesses so that we can make referrals to the appropriate services and accommodations for you. Please remember that you have the right to file for a fair hearing if you disagree with a county action including actions related to learning disabilities.

If you are Limited-English proficient and a Learning Needs Screening is not available in your primary language, you have the right to request a referral directly for a learning disabilities evaluation.

LEARNING NEEDS SCREENING
