

County: Kern Year: 2000**Performance Incentives Projects Overall Expenditure Plan – (REVISION-03/02/01)**

Do not limit comments to space provided. If you have a Word Program, you may obtain an electronic version with expandable fields by sending an e-mail to regionaladvisors@dss.ca.gov with "Request for Overall Expenditure Plan Form" in the subject line .

Use this form to provide a brief explanation of your overall expenditure plan for performance incentives, including any plans to hold back expenditures and the status of any future planning processes. You must include how the benefits and services that will be provided using Performance Incentive Funds relate to the issue of sustaining self-sufficiency and how these services will be coordinated with other services within the community that are funded from sources such as the county's single allocation, Welfare-to-Work grants and community college funds.

Kern County has earned a total of \$29,412,269 in Performance Incentive funds through June 30, 2000. Of this total amount \$732,440 had been expended as of June 30, 2000 leaving \$28,679,829 available for FY 2000/2001 and future years. Kern's five-year forecast for these available funds can be categorized into three groups, 1) \$47,299,679 to cover projected shortfalls in the CalWORKs Single Allocation, 2) \$23,234,248 for projects that meet one or more of the four TANF goals, and 3) (\$41,854,098) projected shortfall due to the ongoing funding uncertainties of the CalWORKs Single Allocation and Performance Incentive funding streams. If funds are freed up due to an augmentation to Kern's Single Allocation or through the Child Care Reserve process, those funds will be used to move forward on some of the 15 projects currently on hold due to a lack of funding and/or to cover the future funding shortfalls currently projected for the County.

In Kern County, our CalWORKs Service Delivery model is designed to utilize the strength and expertise of multiple agencies. To this end, we created the Kern Works Partnership with the following core members: Kern County Department of Human Services, Employers' Training Resource, California Employment Development Department, Kern County Department of Mental Health, Kern County Superintendent of Schools – Community Connection for Child Care, Curtis & Associates. The Kern Works Partnership provides the core services for CalWORKs. The core services are funded by the county's single allocation and is augmented by the broader, more aggressive services funded by the performance incentive monies. The following performance incentive plan presents the services provided utilizing the performance incentive monies.

Addressing the services provided with other funding streams, in Kern County, \$722,675 of the WtW State Matching funds is provided to Employers' Training Resource to supplement the DOL Hard to Serve program. It is estimated that \$100,000 to \$373,000 will be spent on a tattoo removal program that is in place. The remaining WtW State Matching funds is currently being held to cover possible over expenditures in our single allocation area. Fraud incentive funds are also being held to cover the single allocation shortfall.

In our effort to leverage funding and reduce duplication of effort, we meet on a monthly basis to discuss services provided and to further enhance the existing service delivery model for CalWORKs in Kern County. We continue to face challenges in areas like job retention and skills upgrade training even with the expended effort. Please see the enclosed agency roster for this monthly meeting.

Please list below a summary of all individual projects.

Project Title and Brief Description (include desired outcomes)	Total Incentive Funds Planned for this project	Counts toward “Needy Family” definition?*	Which of the purposes of TANF (or Title IV-A or IV-F) is met? Describe how the purpose is met through this project.	Page number in Attachment
