Using New Fields Available in CWS/CMS to Record Parenting Data

Client Notebook – Name and ID page

- The ‘Client is a Minor Mother’ checkbox has been renamed to ‘Client is a Minor/NMD Parent’.
  - The checkbox is available in the Client Notebook for Case and Referral.
- If the parent/child relationship does not exist, a label will appear on the ID page of the Client Notebook reminding the user to document the Minor/NMD Parent and Client and Child relationship.
- The user will receive a warning message if the ‘Client is a Minor/NMD Parent’ checkbox is unchecked and result in the deletion of ‘Child is Placed with Minor/NMD Parent’ and ‘Count of Child Placed with Minor/NMD Parent’ data, if it exists.
Zippy Referral Notebook – Clients page

- The ‘Client is a Minor Mother’ checkbox has been renamed to ‘Client is a Minor/NMD Parent’.
- If the parent/child relationship does not exist, a label will appear on the Clients page of the Zippy Referral notebook reminding the user to document the Minor/NMD Parent and Client and Child relationship.
- A message will be displayed and the application will prevent the user from saving to the database if the ‘Client is a Minor/NMD Parent’ checkbox is checked on the Clients page of the Zippy Referral notebook and parent/child relationship does not exist where the Client is a parent. After the user acknowledges the message, focus will be returned to a Traditional Referral.
Placement Notebook – ID page

- A new read-only ‘Client is a Minor/NMD Parent’ checkbox has been added to the ID page in the Identification and Approval frame, below the Care Provider Relationship to Child combo box.
- A new checkbox has also been added to indicate that a child is placed with a Minor/NMD Parent, with a textbox to enter the number of children placed with this Minor/NMD Parent.

Placement Notebook – Non Foster Care page

- A new checkbox has been added to indicate that a child is placed with a Minor/NMD Parent with a textbox to enter the count of children placed with the Minor/NMD Parent.
In the event that a parenting minor/NMD is no longer parenting due to termination of parental rights, or the child of the minor/NMD is deceased, then the checkboxes in all of the areas mentioned above should be unchecked in order to reflect their change in parenting status.
